

0 Linebooker V3 Architecture Atlas
graphical index, status map and navigation root
LB-V3-L0-01 · AVAILABLE

start with the system landscape

L1 - STAKEHOLDER LANDSCAPE AND ARCHITECTURE ENTRY POINT

1 System and Platform Overview AVAILABLE
participants, experiences, capabilities, platform and regions
LB-V3-L1-01 · HTML + PDF

zoom into logical construction

L2 - LOGICAL AND TECHNICAL ARCHITECTURE

2 Logical and Technical Architecture AVAILABLE
how the platform is constructed - services, messaging, data, deployment
LB-V3-L2-01 · 2 sheets · HTML + PDF

2 Technology Selection and Rationale DRAFT
which technologies are selected and why - platform selections, external services
LB-V3-L2-02 · 2 sheets · HTML + PDF

L2-01 separates into concern views

L3 - FOCUSED ARCHITECTURE VIEWS

P Participant + Tenancy
authority and membership
LB-V3-L3-01 · PLANNED

F Functional Domains
tender to settlement
LB-V3-L3-02 · PLANNED

A Application / MFE
shell and experiences
LB-V3-L3-03 · PLANNED

I External Integration
contracts, APIs, adapters
LB-V3-L3-04 · PLANNED

N Messaging / NATS AVAILABLE
trust, accounts and topology
LB-V3-L3-05 · AVAILABLE

W Workflow / Temporal
long-lived processes
LB-V3-L3-06 · PLANNED

D Data Architecture
truth, history and documents
LB-V3-L3-07 · PLANNED

R Multi-Region AVAILABLE
cells, residency and recovery
LB-V3-L3-08 · AVAILABLE

S Security + Identity
access, policy and audit
LB-V3-L3-09 · PLANNED

O Observability
health, logs and traces
LB-V3-L3-10 · PLANNED

F Financial Architecture
billing, currency and settlement
LB-V3-L3-11 · PLANNED

D Deployment + Services
service and runtime model
LB-V3-L3-12 · PLANNED

refine into implementable designs

L4 - DETAILED DESIGNS

N NATS contracts
subjects + streams
L4 · PLANNED

W Workflows
states + activities
L4 · PLANNED

D Data schemas
models + retention
L4 · PLANNED

A APIs + adapters
payloads + policies
L4 · PLANNED

D Deployment
runtime + recovery
L4 · PLANNED

P Permissions
roles + claims
L4 · PLANNED

ACRONYMS

ADR Architecture decision record	LB-V3 Proposed Linebooker version 3
API Application programming interface	MFE Micro-frontend
HTML The editable source edition of a document	NATS The messaging system; a product name, not an abbreviation
KV Key/value store (NATS KV)	PDF The distributable edition of a document
L0-L4 Architecture detail levels, atlas to detailed design	SVG Scalable vector graphics, the drawing format
